BOO STORIES.

DECATUR, ILLINOIS, SATURDAY, AUGUST 3, 1878.

The Dog who was Strug, and the Dog who Disliked Family Prayers.

A funny street incident is related by St Louis paper about a dog, which, being bothered by a bee on a hot day, as he was dozing by a greece's door, in cautionaly snapped at up in his month. He made a sudden apring to his feet as if he had just thought of sensething that he had to do in a hurry, and the hair all over him raised on end as if he badbeen electrified. Then he pranced around for a moment, shaking his head frontisally as if he were worrying a rat. A little black object dropped from his mouth, which be looked inquiringly for a brief instant, and then started off in baste to see a man around the corner. howing dismaily as he went. The man the little black object that lay on the sidewalk, and poked it timidly with his paw. He, perhaps, wanted to be able to recognize one of those httle things if be should ever encounter one again

Crib, a wonderful dog, described to All the Vest Round by his proprietor as "an enemy of poachers, a friend of catand a connoissent of gooseberries," while regaling humself upon his favorite fruit, fresh from the bush, got stung by a wasp, bent upon a gooseberry taking too, and experienced a never to be-forgotten sensation. Crib became convinced his vocation in life was to wage war upon wasps, and from that time devoted all his energies to their destruction, and taking up an advantageous position un der the bushes be and his encinies most affected, snapped them anchest as they appeared, without gotting burt himself He, at any rate had remonable and just cause for the antipathy he indulged, which is more than can be said in extenuation of the archgious Collie, whose hubit it was to sucal out of his masters company as that gentleman took down his Family Prayers and rang for the servants Purposely prevented one evening from making his usual exit, Noble took such parms to behave indecorously that it was judged wisest to let him have his way for the future, and he was never known to make one of the nightly gathering again

Paying Out Greenbacks

The Vinton (lows) Eagle eags. General J. B. Why not donate to each State enough greenbacks to pay its expennes and the interest on its debt, or better still, pay off the State debts and save the interest? Come to think of it, we can see no objection to stopping the 'taxes' and paying national and State expenses five years as well as two years why not try it fifty years? there are a few county and city debts that might as well be wiped out are a few churches, too, that have been grouning for years under debt. How providence would smile to those debts paid by robbery. understand also there are a few farms in the country undermortgage. Wouldn't it make a good many honest hearts leap for joy to have those mortgages lifted? We can see no objection to paying all private debts in this manner. And while the blessed old Uncle Sam leave each of us a million or two of greenbacks for pin money. Wouldn't perfection of his work. It be glorious. We like Weavers. There is no power of love so hard to get and keep as a kind voice. A kind and is deaf and dumb It may be rough in flesh and blood, yet do the work of a noft heart, and do it with a soft touch. But there is no one thing that love so much needs as a sweet voice to tell what it means and feelt, and it is hard to get and keep it in the right tone. One must start in youth and be on the watch sight and day at work and play, to get and keep a venue that shall speak at all times the thoughts of a kind heart. But this is the time when a sharp voice is most apt to be got You often hear boys and girls at play say words with a quick, sharp tone as if it were the suspof a whip. When one of them gets vexed you will hear a voice that sounds as if it were made up of a snark a whine, and a bark Such a voice often apeaks worse than the heart feels. It shows more ill will to the tone than in the words. It is often in youth that one gets a voice or a tone that is sharp, and sticks to him through life, and stirs up ill will and grief, and falls like a drop of gall on the sweet juys of home. Such as these get a sharp home voice for use, and keep their best voice for those they meet also where, just as they would save their best cakes and pies for guests, and all their sour food for their own board. I would say to all boys and girls, "He day by day, as a pearl of great price. to come than the best pearl hid in the sea. A kind voice is a joy like a lark's
